## Mesquite completes 500th Addressing Mesquite Day home

The City of Mesquite recently achieved a historic milestone by assisting its 500th home through the Addressing Mesquite Day program.

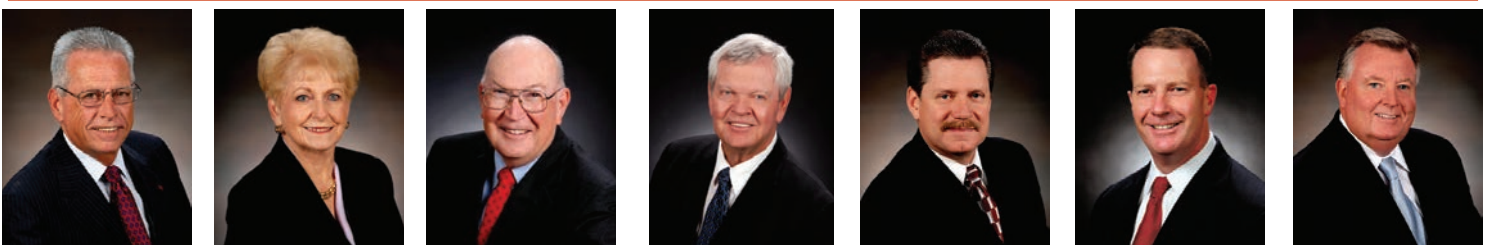

Addressing Mesquite Day was started nine years ago to perform home-related projects for residents in need, particularly those who are elderly or disabled. The annual one-day community service event has used a combination of City staff and community volunteers to perform various home improvement tasks, including minor repairs, landscaping, clean up, painting and more. A large percentage of the volunteers are generated by various churches through the Mesquite Ministerial Alliance. This year alone, Mesquite had more than 800 volunteers work on 72 homes. Since 2005, more than 15,000 volunteers have donated their time and talent towards this award-winning program.

In 2011, The International City/County Management Association presented Mesquite the Community Partnership Excellence Award for demonstrating innovation, excellence and success to improve the quality of life for residents.

City staff and community volunteers completed the 500th project through the Addressing Mesquite Day program.

## MAYOR'S CORNER

## Keep Mesquite Beautiful hosts successful event

Last month, the Keep Mesquite Beautiful (KMB) organization hosted its annual Recycles Day at Poteet High School. The total number of recyclable materials is still being tabulated, but 815 vehicles were processed through the recycling center which shatters last fall's total of 585. KMB collected e-waste, tires, clothes, books, cell phones and more. The event also offered document shredding services. KMB Executive Director Paige Swiney stated, "It is very possible that KMB and all our volunteers helped divert close to 100,000 pounds of recyclable material from our landfills."

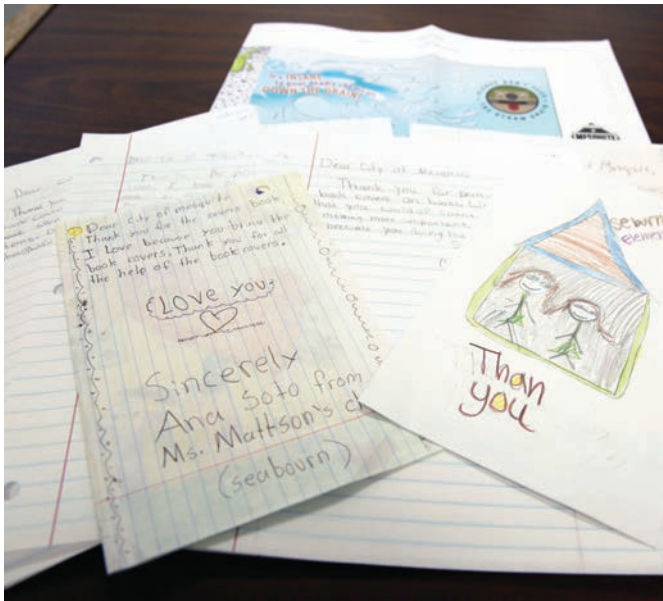

KMB hosted another successful Mesquite Recycles Day.

## Did You Know?

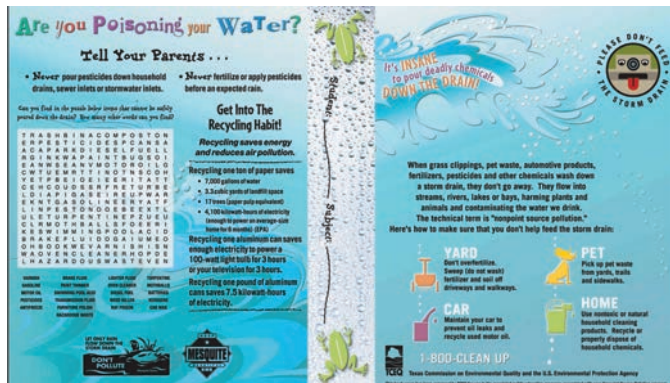

This is a monthly section to give readers a brief insight into the City's operations, services and programs.

Did you know that the City of Mesquite Public Works Department provides complimentary book covers to students in the Mesquite Independent School District? As part of a program through the Texas Commission on Environmental Quality and Keep Mesquite Beautiful, the City's Public Works Department uses the book covers to convey simple household and recycling tips and the importance of not polluting the City's storm water inlets. For example, recycling one aluminum can saves enough electricity to power a 100-watt light bulb or a television for three hours.

Each year, the Public Works Department receives thank-you letters from individual students as well as entire classrooms for the donated book covers.
