

UCR stands for Uniform Crime Reporting. UCR Crimes include Murder, Rape, Robbery, Aggravated Assault, Burglary, Theft, and Motor Vehicle Theft. Those crimes are defined here:

<https://www.ucrdatatool.gov/offenses.cfm>

UCR data has been separated into each council district to show the specific data that a citizen might be interested in. However, it is important to note that the exact location where a crime occurred is not always known, which can make it difficult to precisely match each event to a council district. For that reason, the total UCR count for the six districts might not equal the citywide count. The Citywide count is the most accurate count of the City's UCR total for the month.

If you are interested in crime data beyond what is available on this site, the Mesquite PD posts our reported crime to www.communitycrimemap.com. On this site, you can specify what types of crime you are interested in and can view the results on a map. You can also specify a particular area that you are interested in and have the site email you whatever alerts you choose.

CFS stand for Calls For Service. What is presented here is all Mesquite Police Calls for Service within each Council District for the month. The calls are separated into Priorities, the lower the priority, the more urgent the call. For example, a Priority 1 call is a life threatening emergency or a serious crime in progress (ex. Robbery in progress, etc.). A Priority 2 call is a crime in progress (ex. Burglary or Theft in progress, etc.). A Priority 3 call is something that has the potential to escalate or that might be a crime in progress (suspicious person call or verbal disturbance). Priority 4 thru 6 are delayed calls or less serious calls (ex. Delayed assault, abandoned vehicle, etc.). Priority 7 calls are generally self-initiated activity (ex. Traffic Stops, Patrol initiated investigations, etc.). Priority 9 calls are ones that get handled over the telephone (reports taken over the phone). If someone is interested in reviewing Mesquite Police Calls for Service with a little more detail, they can see calls responded to within the previous 24 hours here: <http://apps.cityofmesquite.com/911data/police.php>
