

Traffic Regulatory Bumps in Alley Information

Important Information: Location must be pre-approved by Traffic Engineering Division. Pre-approval will insure that location is suitable for the installation of alley bumps.

1. The final approval for the installation of the alley bumps will be made by the City of Mesquite Manager of Traffic Engineering.
2. The following requirements must be met prior to submittal:
 - a. Ten (10) MPH speed limit signs be placed in the alley.
 - b. A petition must be signed by a minimum of 75% of the owners of the lots abutting this alley along its entire length from one public street to its intersection with another public street or alley. You must contact the Traffic Engineering Division to obtain a copy of the petition.
3. If approved, regulatory bumps will be installed by the City of Mesquite at no cost to the abutting property owners.
4. Under normal circumstances, bumps are installed approximately 300 feet apart. The exact number and spacing of the bumps will be determined by the Traffic Engineering Division after an on-site study.
5. When the petition is completed, you may mail it to Traffic Engineering Division, P.O. Box 850137, Mesquite, TX 75185-0137, deliver it to the same office at 1515 N. Galloway, or email it to mzdansky@cityofmesquite.com.
6. **For pre-approval of location or more information, you may contact the Traffic Engineering Division at (972) 216-6955.**
