

**Life Saving Award #2
June 22, 1016**

On June 22, 2016, Ambulance 01 responded to a sick person call. Upon arrival, paramedics found the patient lying on her back complaining of shortness of breath. The patient became very sweaty and clammy and pupils were fixed and dilated. While attempting a 12-lead EKG, the patient became unresponsive, stopped breathing and did not have a pulse. CPR and advanced life support measures were initiated immediately, and continued in route to the hospital and taken over by hospital staff upon arrival. Because of the quick actions of the responding paramedics and hospital staff, this patient was discharged from the hospital alive at a later date.

Please help me recognize the following Mesquite Fire Department Members for giving this patient another chance at life.

Ambulance 01

FF/Par. Elliot Howard

FF/Par. Blake Turner
