Mesquite offers water conservation tips

On October 1, Mesquite water and sewer rates increased. This increase is a direct result of increasing costs passed onto customers by our water supplier, the North Texas Municipal Water District (NTMWD). The City of Mesquite empathizes with customers' frustrations and wants to help them keep their bill as low as possible. There are steps water customers can take to conserve water and save money. Visit www.cityofmesquite.com/ConservationTips for more information plus videos on proper lawn irrigation. In the meantime, the City of Mesquite will continue to seek a water rate structure with the NTMWD that is fair and equitable.
